

KOGAN WI-FI BLU-RAY PLAYER WITH BD LIVE FULL HD 1080P

RRP \$179 / **CONTACT** KOGAN / **PHONE** 1300 304 292

WEB www.kogan.com.au

We've previously been pretty happy with Kogan's Blu-ray players, citing fine picture quality, low cost and flexible DVD and Blu-ray region settings. With prices on the whole taking a dive, Kogan's offerings are starting to struggle to differentiate themselves on value at least, especially against fuller-featured — but no more expensive — players. This 2D player is a prime example, with internet and network video streaming both noticeably absent (its inbuilt Wi-Fi only serves BD Live and firmware updates). Size is also a bit of an issue, with this player somewhat chunkier than most, despite offering fewer bells

and whistles. That said, if you have a large collection of imported discs, this is still the player for you, with both DVD and Blu-ray region switching possible via easily found online codes. The picture quality is fine and setup is as easy as you'd expect of a relatively barebones system.

PC User says: **Inexpensive and region-free, but otherwise sparsely featured.**
