### 7. Frequently Asked Questions

**Q. Why can’t the Digital Photo Frame play all images or movie files?**

**A:** The Digital Photo Frame can support JPEG, MP3 and some video format depending on the product specification. It may not read some files downloaded from the internet.

**Q. I have a memory card in the Digital Photo Frame, but it’s not reading the card, what should I do?**

**A:** First, make sure that you are using a memory card that is supported by the Digital Photo Frame. Second, ensure that the memory card is inserted all the way into the correct slot. Third, choose the correct card icon which you want to play.

**Q. Why do some pictures load faster than others?**

**A:** Higher resolution pictures usually load slower.
This symbol on the product or in the instructions means that your electrical and electronic equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU. For more information, please contact the local authority or your retailer where you purchased the product.
